CYBERSECURITY AWARENESS MONTH

OCTOBER ENDS. SECURITY DOESN'T.

Four habits worth keeping all year:

1. **Think before you click**
   Verify links, senders & attachments
2. **Turn on MFA**
   Add a second lock to every login
3. **Update everything**
   PCs, phones, cameras & access control
4. **Speak up**
   Report anything suspicious, fast

CYBERSECURITY AWARENESS MONTH

OCTOBER ENDS.
SECURITY DOESN'T.

Cybersecurity Awareness Month wraps up this week, but the threats don't take November off.

Four simple habits that protect your business all year:

1. **Think before you click**
   Check links, senders and attachments.

2. **Turn on multi-factor authentication**
   Use it everywhere you can.

3. **Keep everything updated**
   Including security cameras, access control and smart locks. They're on your network too!

4. **Speak up**
   Report anything suspicious, fast.
